

Tip of the Month – April 2021

Cow statistics report.

In addition to the lists, “AMS milkings” also contain the list “Cow statistics report”.

This shows, for example, which cows are often milked and also have many or few refusals.

But also whether the cows are just as active this week as they were last week.

It is interesting to see per cow, but also the average of all cows.

This is of course especially interesting if something changes, for example a ration change, pasture, or

(Maybe put it on “Last 30 days”)
